Tips for guiding adolescents using social media

1. Be aware and stay current. 2. Show interest by asking and advising. 3. Set the guidelines and give clear rules. 4. Monitor and keep tabs. 5. Be flexible and let them grow.

Tablets

Please remind your child to safeguard his/her tablet by placing it in the school provided carrying case. Carrying too many items in the case may increase the possibility of breakage. Remember insurance only covers one claim per school year; continual breakage repairs are the responsibility of the family.

Lynbrook Technology reminder

Please remember to restart your computer on a daily basis. There are several important security and communication updates scheduled to take place over the next two weeks. It is very important that students regularly shut down and restart their laptop computers to enable the updates to take place. Simple practices like this will ensure your laptop runs better in the long run.
