

# "Recess in a Box"

## Optional

We are asking our Marion Street students to create a "recess kit" for INDOOR USE.

### *This is not required*

This kit will be used for inclement weather days.

The purpose of this kit is to provide students with activities that they can do during indoor recess, which will be held in the classroom, lunchroom or hallway.

#### Requirements for making this kit:

- The kit (box, bag, etc) must be no larger than a typical lunch bag.
- It should be able to fit in the student's backpack.
- NO ELECTRONICS

#### Helpful suggestions:

- Sketch pad, coloring book
- Crayons, markers, colored pencils
- Book for quiet reading
- Small toys, such as cars, dolls or action figures (no weapons)
- If you send Legos, play-doh or items with small parts, they should be kept in a separate ziplock bag. No tears if parts are lost!

These are only a handful of ideas

This kit may be brought in on any inclement weather days.

If you have any questions, please reach out to your classroom teacher.
